

Parents/Guardians,

I am sending an update in regards to your child's continued learning.

Harper Creek Community Schools has submitted the required Continuation of Learning Plan to the Calhoun Intermediate School District for approval.

Next week our staff will be preparing and planning for distance learning. You will be or have been contacted by your school if you have technology needs. Families without access to technology will be given hard copies of instructional materials.

Distance learning will begin officially on Monday, April 20th. Harper Creek will use a mixed media approach with online learning and hard copies of instructional materials for students without technology access. Please continue to use the learning links that are found on the District's website - www.harpercreek.net.

Further communications and details regarding the Continuation of Learning Plan will occur once the Plan has been approved by the Calhoun Intermediate School District and the State of Michigan.

I appreciate your patience during this unprecedented time.

Take care,

Rob Ridgeway

Superintendent
