

Parents/Guardians,

Thank you to all who reviewed the learning options and registration link I sent on Friday, July 24th. We had about half our families respond with their student's choice for the 2020-21 school year over the weekend. It is vitally important that all students are registered for one of the two instructional models for our planning processes; virtual and face-to-face. There were many questions regarding the request and I want to clarify as much as possible. The information below, a Frequently Asked Questions document and the Calhoun County Department of Public Health Toolkit are included in this communication. All may be helpful in choosing your child(rens) instructional model. Because there was confusion we are extending the registration deadline to Monday, August 3.

Here is the [Registration](#) link.
